

SAY TRUCKS

POWERED BY TRADETECH

LOGISTICS ACCELERATED

Cut through complexities with the power of the cloud.

Trade Tech gives you the power to manage the entire shipping process, from origin to destination, and to collaborate with your customers, carriers and Customs' security requirements.

Our web-based interface, Syrinx, puts blistering-fast shipment management power in your hands - anywhere in the world.

"Trade Tech's solutions are very reliable and user-friendly"

- i.V. Jan Bender, DACHSER

COLLABORATIVE TRADING COMMUNITY

Our client's customers love Syrinx's simple-to-use interface to quickly find their shipments and collaborate on the move.

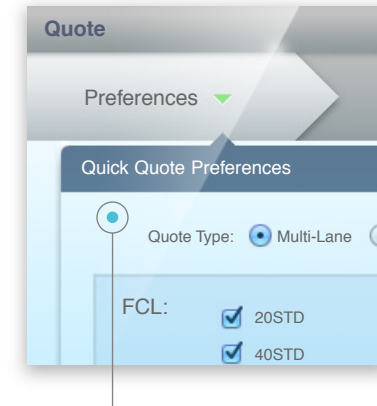

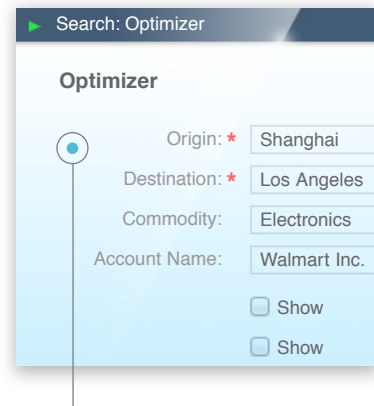

Our clients experience accelerated productivity in shipment management with laser accurate quality using Syrinx.

Customs and carriers collaborate instantly through Syrinx to our clients and their trading partners, across the globe in real time.

 **GO PAPERLESS**
with syrinx!

TRADE RATES

Trade Rates Optimizer models cost scenarios factoring all surcharges and combinations to deliver an optimal buying solution in lightning-fast speed. Let Syrinx figure it out for you.

Trade Rates Profiles puts all your customer info at your fingertips with a searchable database and an insanely easy to use CRM.

Trade Rates eQ (Easy Quotes) takes care of all your global pricing needs with incredible accuracy and ease.

TRADE MANAGER

Trade Manager manages the complex sequence of operational events—all along the supply chain. Collaboration is a snap, with every supply-chain participant kept in the loop and able to step in as needed.

TRADE SERVICES

“A global AMS/ISF system that is beyond reproach”.

- Laurie Arnold, JAS Forwarding USA Inc.

Trade Security connects directly with Customs' agencies around the world to meet 24 Hour Rule compliance requirements. Integration with our Trade Content ensures that your data is accurate and complete before it's sent. Options include Direct Input, Full Service Data Input where we do the data input for you, and EDI.

Trade Docs takes the hassle, and the cost, out of entering your data. Quickly upload the shipping instructions you receive and let our service key in the data for you.

The screenshot displays a web application interface. At the top, there's a navigation bar with "Security" and "Adm". A modal window titled "Security" is open, containing a form with radio buttons and dropdown menus for "AMS:", "ACI:", "ISF:", "AES:", and "AFR:". The "AFR:" option is selected with "Port to Port" in the dropdown. A green "CONTINUE" button is at the bottom right of the modal. Below the modal, there's a section titled "Upload Documents" with two buttons: "1. Select Documents" and "2. Enter Group". Below that is a "Progress Dashboard" section with a table:

	Status	Company
	Recieved	Walmart
	Processing	Target

At the bottom of the dashboard, it shows "Sarah" and "2013-2-23 @ 1:00 PST".

“Trade Tech's customer service is amazing.”

- Albert Chen, Eirta Logistics

Sailing Schedules for over 100 carriers in 70+ trade lanes lets you compare the schedules of each ocean carrier and project arrivals and departures. You'll always know the quickest options making you the on-demand expert in global shipping.

Global Carrier Surcharges tracked by a team of shipping professionals on a daily basis takes the fog out of ocean pricing and reveals accurate, apples-to-apples rate comparisons.

"We worked hard to rethink how international business is done. We wanted to make it rich in content with expertise on demand and we wanted to make it fun to use. Our goal is to provide an intuitive application that simplifies the complexity of doing business around the world.

Syrinx leverages cutting edge Web 2.0 technology to create a powerful collaborative platform where our customer community can work in real time together and with their vendors, suppliers, customers, and the governments as they manage their supply chains around the world.

We hope you will come and experience the allure of Syrnix."
